#### HALLOWEEN VISTORS

The elves have their home and the pixies and gnomes have their nooks in the wood. Far from main-traveled roads are their modest abodes. That is well understood.

But they call once a year and they play antics queer. If we went where they dwell, I suppose they would yell for the fairy police.

#### SUIT FOR DIVORCE

Charging drunkenness, Noah Marie Gault, through Attorney Frank P. O'Donnell, filed suit in the Mason Circuit Court yesterday for divorce from Charles D. Gault. In her petition she stated that the defendant had been drunk for over one year and was wasting his estate. She asked for absolute divorce, \$500 alimony, \$10 a month to prosecute her action for divorce and for a reasonable attorney's fee.

#### AMERICANS ENTRY

Into Trenches Is Hailed By Allies—Advent of United States Has More Than Made Up For Russia's Weakening.

London, October 29.—The entrance of units of the American army into active service on the Western front, although overshadowed as a news item by the Austro-German invasion of Italy, receives prominent notice in the newspapers as a much more than picturesque event. The Daily News says: "It would be idle presuming to expect Germany, in the intoxication of her Italian victory, to appreciate its full meaning. This does not alter the facts, either immediate or prospective. Germany has called in the new world to redress the balance of the old. The balance will be redressed."

The Express announcing on American energy says: "It looks ill for Germany and gives added certainty that victory, however long delayed, is assured. It warns that this does not justify a relaxation of British efforts. The Graphic says: "The descendants of the embattled farmers of Concord have fired a shot which, like that of the minutemen, will be heard 'round the world."

The advent of the United States has more than made up for Russia's temporary weakening. It should have a steady influence in view of the blow at Italy, and should be recalled whenever there is a tendency toward pessimism."

THOMAS M. RUSSELL for Mayor.

#### LASH IS APPLIED

To Bare Back of Ohio Pacifist—Herbert S. Bigelow Thashed With Blacksnake Whip By Masked Men in Kentucky.

Cincinnati, Ohio, October 29.—Herbert S. Bigelow, head of the People's church, of this city, one of the leaders of the People's Council, Socialist and pacifist, was taken into a dense woods near Florence, Ky., shortly before midnight last night, tied to a tree and horsewhipped by men "who wore long robes and hoods, similar to those described as worn by the renowned 'Ku Klux Klan' according to a report from Florence this morning. The report stated that the party, with Bigelow was a prisoner, gagged and hand cuffed, worked its way to the center of the woods. Here they removed the handcuffs long enough to disrobe him, and then tied him to a tree. One of the leaders of the party then read from a piece of paper he held in his hand, with the light of a lantern held by one of his associates reflecting over his shoulder. The reader said:

"In the name of the poor women and children of Belgium this man should be whipped."

At a given signal another man, clad from head to foot in white, stepped out of a huge circle that had been formed, drew a long whip of the "blacksnake" kind and delivered twelve lashes upon the back of Bigelow. The ropes were then cut. Bigelow was warned to stay away from Cincinnati, and he was released, while the party made their way back to their waiting automobiles and disappeared.

Bigelow wandered an hour in the woods and seeing a tall church spire in the distance, he made his way there, finding himself in Florence, Ky., about twenty-five miles from this city. He was taken to the home of Dr. H. K. Grant, where he received medical attention and then, according to his own statement, he stayed up the remainder of the night writing in detail his experience of the evening. It was not until late in the morning that he notified his friends in this city where he was.

#### HORRIBLE CRIME

Caused Ellis Hartley to Commit Suicide at His Home in Flemington County Saturday Night—Had Criminally Assaulted Two Young Girls.

Muses Mills, Ky., October 29.—This community was shocked late Saturday evening when it was learned that Ellis Hartley, aged 28, a farmer of Pea Ridge, two miles west of this place, had committed suicide by placing a breach-loading shotgun against his forehead, blowing the entire top of his head off.

His wife, who is 50 years of age and who was a widow with several grown children before her marriage to Hartley, had learned earlier in the day that he had been guilty of criminally assaulting her 11-year-old daughter and her 12-year-old granddaughter, who had been making her home with the Hartleys for some time. The young girls stated that Hartley had assaulted them several times during the past several months and had threatened their lives if they told of it.

Saturday night his wife approached him with the seriousness of his crime and named prosecution. He arose from his chair in the parlor, walked to the front porch and seized a shotgun fired the shot that ended his life.

Coroner Harold Compton, of this place, was called by phone and he hurried to the scene. After empaneling a jury and examining several witnesses the jury returned a verdict of suicide.

His remains were interred in the Pea Ridge cemetery Sunday afternoon. A large crowd was present to view the ghastly remains.

## THE SOLDIER AND THE COMMUNITY

One of the important activities being carried forward by the training camp commissions deals primarily with the civilian communities near the cantonments. As stated by Joseph Lee, president of the Playground and Recreation Association of America, the commissions are trying to foster and conserve "the men's natural relations to the world outside."

The health and welfare of the men within the camps are being thoroughly cared for. And now the biggest evil of soldiers' camps of the past, "the cutting off of the men from those relations to home and friends, to church, to employment, to social and business associates of which a normal life principally consists", to be done away with. The soldier is to be helped to continue the normal social relations with the rest of the world just as far as possible, and to avoid the homesickness and depression that follow the complete severing of domestic and business ties.

Camp directories are being provided that will indicate suitable lodgings for soldiers' visiting families. "Hostesses' houses" are established where women relatives can enjoy comfortable rest and reception rooms while waiting to see the men they have come to visit.

But the chief work lies with the community as a whole. A census is made showing the church, club, college, or any other organization the soldiers have belonged to in his home community; his preference in games, his hobby, his musical or other talent, etc., are all indicated. With such data to work from it is easy for the local organizations to invite soldiers to participate in their activities, to sing in choirs, to address Sunday school classes or Boy Scout meetings. College societies and lodges and local clubs ask the men to join them in "smokers", in athletic contests and dances. Families in the neighboring community are enabled to invite the soldiers to visit in congenial homes.

The soldier's tendency to "go to town" during free hours is strong and natural. The camp library and Y. M. C. A. are big helps toward breaking the monotony within the camp. But there's a normal desire to get out and "see folks". This the training camp commissions are helping the men to do in a wholesome, natural way. The success of the project depends on the whole-hearted response of the communities. That response will not be withheld.

## A PATRIOTIC INDUSTRY

The American Meat Packers' Association, in convention at Chicago, adopted a resolution declaring: "It is vital to the maintenance of free government in the world and to the existence of this nation as an independent democracy that we win this war. Therefore it is the duty of every true American, whether on the battle front, in the camp or in the home, to give the very best that is in time to his country's cause."

Fine words, easily spoken! But the packers went further than fine words. They proceeded to pledge their great industry to complete co-operation with the government for the conservation of the nation's food supply. They promised to give the American army the very best meat they could furnish, at prices as near actual cost as they can make them, and also to sell to the public at the lowest possible margin of profit.

Here, indeed, is a wondrous transformation in an industry that was guilty of the "embalmed beef" scandals in the Spanish war. Its reformation seems sincere, and its promises are accepted at face value. The conduct of the big packers since we entered the war has been such as to create confidence in their good faith.

How the nation would rejoice at a demonstration of the same honest and loyal spirit on the part of the coal industry! And how pleasant such assurances would be coming from the millers and bakers of the country!

**Suffering Described As Torture  
Relieved by Black-Draught.**

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while fitting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks."

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-131

### GOOD BACKS FOR BAD

Maysville Residents Are Learning How to Exchange the Old Back For a Stronger One.

Does your back ache, feel weak and painful? Do you suffer headaches, languor and depression? The kidneys may be calling for help.

Weak kidneys cannot do their work. Give them the help they need. To cure a kidney backache you must cure the kidneys.

Use a tested and proven kidney remedy.

Doan's Kidney Pills have stood the test.

Convincing proof of merit in Maysville endorsement:

Mrs. M. Holliday, 221 W. Second St., Maysville, says: "At times, my back has ached across my kidneys. My kidneys have been irregular in action and I have had dizzy spells and headaches. I have always used Doan's Kidney Pills, getting them at Wood & Son's Drug Store, and they have never failed to relieve these complaints."

Mrs. Holliday is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Holliday had—the remedy backed by home testimony. 60c all stores. Rt. Rev. Cortlandt Whitehead, bishop of Pittsburgh and one of the eminent leaders of the Protestant Episcopal denomination, celebrates his 75th birthday anniversary today. A native of New York city, Bishop Whitehead graduated from Yale in 1863 and from the Philadelphia Divinity School four years later. It is just half a century since he began his ecclesiastical career as a deacon of the Episcopal church. He was ordained a priest in 1868 and for several years was engaged in missionary work in Colorado. In 1870 he returned East to become rector of a church at South Bethlehem, Pa. Since 1882 he has been bishop of the Pittsburgh diocese. Bishop Whitehead's eminent services to the church have been recognized in the bestowal of honorary degrees by Hobart College, Union College, the University of Pittsburgh and several other prominent institutions.

## CIVIC BODIES AND PRESS FAVOR THE AMENDMENT

There is wide spread interest throughout the state in the constitutional amendment permitting the purchase of one telephone company by another, which was adopted by the last Legislature, and which will be voted upon at the coming November election. Chambers of Commerce and civic bodies in a large number of communities have adopted resolutions endorsing the amendment and pledging their efforts towards its passage. Newspapers throughout the state are also endorsing the amendment and are urging the importance of a favorable vote by the people.

The amendment to the constitution, which is made a part of Section 201, is as follows:

"Provided, however, that telephone companies may acquire by purchase or lease, or otherwise, and operate, parallel or competing exchanges, lines and structures, and the property of other telephone companies, if the railroad commission or such other state commission as may have jurisdiction over such matters shall first consent thereto, and if, further, such municipality wherein such property or any part thereof is located shall also first consent thereto as to the property within its limits, but under any such acquisition and operation toll line connections with the property so acquired shall be continued and maintained under an agreement between the purchasing company and the toll line companies then furnishing such service, and in the event they are unable to agree as to the terms of such an agreement the railroad commission or such other state commission as may have jurisdiction over such matters, shall fix the term of such agreement."

Chambers of Commerce which have passed resolutions favoring the amendment are those at Bowling Green, Frankfort, Lexington, Shelbyville, Henderson, Middlesboro, State Chamber of Commerce of Louisville, and others. Quite a number of newspapers have endorsed the amendment editorially, both at points where there are two telephone systems and in cities where there is only one system.

The Anderson News, Lawrenceburg, Ky., says:

"Two telephone lines in any community, both contending for supremacy, are a perfect nuisance. Two telephones in a private residence are too expensive to maintain; two telephones in a business house are an expensive necessity; therefore the General Assembly has come to the rescue of the people if they will accept its assistance and go to the polls in November and cast their vote for this amendment."

The Danville, Ky., Messenger says:

"It is hoped that the people will remember and vote for this amendment, as it is the only way in which the public in some localities will ever have decent service."

The Interior Journal, Stanford, Ky., says:

"The Interior Journal favors the amendment and will vote for it. One system answers the demand and two are as annoying as they are useless. The demand is for good service, not for multiplicity of exchanges. Then, too, the expense of two systems must be considered. This is just double, and in some cases more than double. Oh! no, don't give us more telephone exchanges, but better service. This is the need of the hour. The amendment ought to carry."

The Bowling Green, Ky., Times

### Journal says:

"We cannot too highly commend the Chamber of Commerce in its efforts to secure the adoption of this amendment by the voters. The Times-Journal is for the amendment, and will add its efforts to those of the Chamber of Commerce to bring about the adoption."

The Paducah, Ky., Sun says:

"The public interest is thoroughly protected under the proposed constitutional amendment, as no purchase can be made without the consent of the city council. The passage of the bill providing for the constitution amendment and the practically unanimous vote it received in the General Assembly is evidence that it was passed in response to a wide spread and popular demand for relief from present telephone conditions."

The Middlesboro, Ky., Three States says:

"Three States has for a number of years in the past been a constant agitator for the one telephone system, showing where the one system could better and more economically serve the public than two or more systems. The expense of two systems is burdensome upon the public and the botheration and confusion of having the walls of your place of business lined with telephones, where one could do the work is sufficient reason why the public should demand one system."

**WOMEN DOING MEN'S WORK**

One of the most striking results of the great war in Europe, is the extent to which women are doing the work of men. Travellers to England and France report that practically every able-bodied man is in uniform and women by the thousands are engaged in doing men's work on the cars and doing all sorts of heavy work besides.

This shows unexpected possibilities in what has been mistakenly called the weaker sex. Women are subject to ailments which men do not have, and when so alluring become weak helplessness sufferers. But a remedy has been found. For forty years, Lydia E. Pinkham's Vegetable Compound has been making such women well and strong, and as able to do work as any other woman.

**BELGIUM REJECTS PEACE OFFER FROM GERMANY**

London, October 29.—La Metropole, a Belgian newspaper published here, says a German attempt to separate the allies has been defeated by Baron de Brogueville, Belgian Foreign Minister.

According to this newspaper Germany recently made a peace offer to Belgium.

**BIG RUSH FOR COAL AT AUGUSTA**
